PROFESSIONAL SUMMARY

Aspiring Software Development Engineer pursuing B.E. in Computer Science Engineering, with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming (OOP), DBMS, and Operating Systems. 7+ months of industry experience across the SDLC — backend development, REST API design, database integration, and debugging. Proficient in Java, JavaScript, Python, SQL, and the MERN stack, with a track record of building scalable, efficient, full-stack applications and strong problem-solving skills (1600+ competitive rating, 360+ day streak).

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL

Backend: Core Java, OOP, Spring Boot 3, Node.js, Express.js, REST APIs, JWT Auth, Exception Handling, DSA, DBMS, OS

Frontend: React.js (Vite), HTML5, CSS3, Tailwind CSS, React Router, Axios, Responsive Design

Databases: MongoDB, MySQL, Oracle Database, Database Design

Tools & Cloud: GCP, Git, GitHub, Postman, Docker, Agile/SDLC, Unit Testing, Debugging, System Design Basics

PROFESSIONAL EXPERIENCE

Core Java Intern — UniConverge Technologies, Noida (Remote)

January 2026 – February 2026

- Strengthened core OOP concepts (encapsulation, inheritance, polymorphism, abstraction) and applied them to design scalable backend modules using Core Java and Spring Boot (MVC).
- Built REST APIs with optimized Java Collections and custom exception handling; participated in SDLC, debugging, and production testing workflows.

MERN Stack Developer Intern — Webstack Academy, Bengaluru (Remote)

September 2025 – November 2025

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) with JWT-based authentication and secure REST API integration.
- Improved modular routing architecture and code maintainability, reducing redundancy across components.

Java Web Developer Intern — Eduskills Foundation (Remote)

- Built RESTful APIs using Java and Spring Boot with a hands-on focus on OOP-based backend architecture, database integration, and testing.

Technical Coordinator — Meta Coders Club, NMIET

September 2025 – Present

- Mentored 200+ students in Data Structures & Algorithms (DSA) and debugging; planned and conducted coding workshops and hackathons.

Secretary — IEEE CSE Student Chapter, NMIET | Open Source Contributor — GSSoC 2026

- Led technical initiatives, organized departmental hackathons/workshops, and contributed to open-source projects in the GirlScript Summer of Code Open Source Track.

PROJECTS

Arogya AI — Intelligent Preventive Healthcare Platform

- Built a MERN-based AI healthcare platform integrating Gemini AI for symptom triage, hospital recommendations, predictive health scoring, OCR, JWT auth, and multilingual support.

Codista LMS — Full-Stack Learning Management Platform

- Developed a full-stack MERN LMS with role-based access control, course management, quiz modules, JWT authentication, and a responsive dark-mode UI.

WorkSphere — Employee Management Platform

- Built an Employee Management Platform for employee records and department-wise search using Spring Boot 3, Java 21, and Oracle Database, with a responsive React (Vite) SPA frontend using React Router, Axios, and Vanilla CSS.

EDUCATION

B.E., Computer Science & Engineering — PCET's NMIET, Pune

2024 – 2028

CGPA: 8.91

Class 12 (HSC), Maharashtra State Board — 2024

71%

Class 10 (CBSE) — 2022

92.4%

CERTIFICATIONS & COURSEWORK

- Associate Cloud Engineer — Google Cloud (HCL) | Java Programming — CodeChef | MERN Stack Development — Simplilearn

ACHIEVEMENTS

- 3-Star CodeChef Coder (Max Rating: 1646) | 360+ Day Streak | 5-Star on HackerRank | Published Research Paper on the Indian Knowledge System | Built a 5,000+ member LinkedIn tech community
