

MAYUR TAYADE

Software Engineer | Full-Stack Development | Agentic AI & Multi-Agent Systems | Cloud (GCP)
Pune, Maharashtra, India | +91 7507642321 | mayurtayade883@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer passionate about building scalable software and intelligent AI systems, with 1 year of hands-on experience through internships and technical leadership roles. Skilled in Java, Python, JavaScript, React.js, Node.js, REST APIs, SQL, and MongoDB, backed by strong DSA and core CS fundamentals. Experienced in Agentic AI and Multi-Agent Systems, with AETHRIX—an autonomous software engineering platform that orchestrates AI agents for code analysis, debugging, testing, and verification. Proven ability to turn complex problems into practical software solutions while driving technical initiatives impacting 300+ students.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL

Agentic AI & Multi-Agent Systems: AI Agents, LLM Integration (Gemini), FSM Workflows, Sandboxing, Regression Testing, Human-in-the-Loop

Backend & Frameworks: Node.js, Express.js, Flask, REST APIs, JWT Authentication, Core Java, OOP

Frontend: React.js (Vite), HTML5, CSS3, Tailwind CSS, Zustand, Recharts

Cloud & DevOps: Google Cloud Platform (GCP), Docker, Git, GitHub, Agile/SDLC

Databases: MongoDB, MySQL, Oracle Database

Core CS: Data Structures & Algorithms, DBMS, Operating Systems

PROFESSIONAL EXPERIENCE

Core Java Intern — UniConverge Technologies, Noida (Remote)

Jan 2026 – Feb 2026

- Improved code modularity and reuse by designing Java backend modules using OOP principles (encapsulation, inheritance, polymorphism).
- Built REST APIs with Java Collections and custom exception handling; supported debugging and testing cycles within an Agile SDLC.

MERN Stack Developer Intern — Webstack Academy, Bengaluru (Remote)

Sep 2025 – Nov 2025

- Delivered full-stack apps with MongoDB, Express.js, React.js, and Node.js, featuring JWT-based authentication and secure REST APIs.
- Reduced code redundancy by an estimated 20% by redesigning the modular routing architecture and component structure.

Frontend Developer Intern — Zetheta Algorithms Pvt. Ltd., Mumbai (Remote)

Aug 2026

- Built Meridian, a financial analytics dashboard prototype for institutional asset management, using React 18, JavaScript, and Vite.
- Enabled persistent, customizable dashboards through grid-based widget layouts with Zustand state management and Recharts visualizations.
- Improved data integrity and UI consistency with Zod schema validation and reusable Storybook components styled with Tailwind CSS.

PROJECTS

AETHRIX — Autonomous Software Engineering Intelligence Platform

- Achieved a 100% verified success rate in the project's automated bug-resolution benchmark with an 8-agent, state-machine (FSM) Agentic AI platform that autonomously analyzes repositories, identifies root causes, generates code fixes, and verifies them through evidence-driven debugging (React, Vite, Tailwind CSS, Python, Flask, REST APIs).
- Ensured safe execution of AI-generated code through path-restricted sandboxing, automated testing and regression verification, up to 3 automated retries with recovery, and human-in-the-loop approval gates before fixes are deployed.

Arogya AI — AI-Powered Preventive Healthcare Platform

- Delivered a MERN healthcare platform with 3 Gemini AI features: symptom triage, hospital recommendations, and predictive health scoring.
- Improved accessibility for diverse user groups by implementing multilingual support, OCR, and JWT-secured authentication.
- Tech stack: MongoDB, Express.js, React.js, Node.js, Gemini API, OCR, JWT.

Codista LMS — Full-Stack Learning Management Platform

- Delivered a full-stack MERN LMS with role-based access control, course and quiz modules, JWT authentication, and a responsive dark-mode UI.
- Tech stack: MongoDB, Express.js, React.js, Node.js, JWT, Role-Based Access Control (RBAC).

EXTRACURRICULAR & LEADERSHIP

Secretary — IEEE Computer Society, PCET's NMIET, Pune

Present

- Coordinated technical community initiatives and activities, guiding 300+ students and driving student engagement.
- Helped organize technical events and learning programs to strengthen peer learning across the student community.

Vice President — Meta Coders Club, NMIET, Pune

Present

- Mentored 170+ student developers while supporting the leadership and technical direction of the club.
- Coordinated technical initiatives and contributed to coding events, projects, and community activities.

Technical Lead — IEEE Student Branch, NMIET, Pune

Present

- Led technical initiatives and student development activities, mentoring members across technical projects.
- Coordinated technical projects and supported the execution of workshops, events, and technical programs.

CERTIFICATIONS

- Associate Cloud Engineer — Google Cloud (HCL) | Introduction to Agents — Mercor | Java Programming — CodeChef

ACHIEVEMENTS

- 3-Star CodeChef Coder (Max Rating: 1646) with a 360+ Day Streak | 5-Star on HackerRank
- Published Research Paper on the Indian Knowledge System | Built a 7,500+ member LinkedIn tech network

EDUCATION

B.E., Computer Science & Engineering — PCET's NMIET, Pune | CGPA: 8.91 / 10

2024 – 2028

- Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Object-Oriented Programming.
